

ANKIT RAUTHAN

Data Analyst — SQL · Power BI · Python · Advanced Excel
+91-9634136551 | ankitrth81945@gmail.com | LinkedIn | Portfolio | GitHub
Dehradun, Uttarakhand, India | Languages: English, Hindi

Professional Summary

Detail-oriented aspiring Data Analyst with hands-on project and internship experience in SQL (T-SQL), Power BI, Python, and Advanced Excel. Skilled in transforming raw, unstructured datasets into clear, decision-ready dashboards and reports through data cleaning, exploratory data analysis (EDA), and KPI tracking. Completed an 8-month Data Analytics internship at GRAS tech, supporting real-time reporting and data validation workflows, alongside self-directed analytics projects covering 71,000+ records. Seeking to apply strong analytical thinking, data storytelling, and visualization skills in an entry-level Data Analyst, MIS Executive, or Business Intelligence Analyst role.

Core Skills

- **Programming & Querying:** SQL (T-SQL), MySQL, PostgreSQL, Python (Pandas, NumPy basics, Jupyter Notebook)
- **Visualization & Reporting:** Power BI (DAX, Data Modeling), Power Query, Advanced Excel (Pivot Tables, XLOOKUP, INDEX-MATCH, Dynamic Arrays, IFERROR/IFNA)
- **Core Analytical Skills:** Data Cleaning & Validation, Data Wrangling, ETL, Exploratory Data Analysis (EDA), Data Transformation, Statistical Analysis, Trend & Root Cause Analysis, Dashboard Design, Descriptive Statistics, KPI Reporting & Report Automation
- **Business & Tools:** Tally Prime, Microsoft PowerPoint, Git/GitHub (version control for project portfolio)

Experience

Data Analyst (Intern)

December 2025 – July 2026

GRAS Education & Training Services Private Limited, Noida

- Contributed to data analytics and reporting projects for GRAS tech.in, collecting, cleaning, and organizing data from multiple sources for analysis and reporting.
- Performed data analysis using Excel and analytical techniques to identify trends, patterns, and business insights.
- Created reports, dashboards, and summaries to support data-driven decision-making for stakeholders.
- Analyzed KPIs and trends to help identify patterns and areas requiring attention.
- Supported data validation and quality checks to improve the accuracy and reliability of analysis.
- Assisted senior analysts on real-time analytics projects, contributing to assigned analytical tasks within deadlines.
- Documented findings and presented analytical insights in a clear, structured manner.

Data Analytics Projects

OLA Customer Experience & Operational Performance Analysis

SQL · Excel · Power BI

- Analyzed 71,000+ Ola ride records end-to-end – cleaning and preprocessing raw data in Excel, then surfacing trends in revenue, cancellations, customer behavior, and ride performance.
- Built interactive Power BI dashboards tracking booking status, ride volume, customer ratings, payment methods, and cancellation patterns as core KPIs.
- Wrote SQL queries to extract business insights on high-revenue routes, top customers, and operational inefficiencies affecting ride completion.
- Diagnosed cancellation and incomplete-ride patterns, flagging potential driver-allocation and service-reliability issues for stakeholder review.

E-Commerce KPI Monitoring & Profitability Analysis

Excel · Power BI

- Designed a single-interface Power BI dashboard giving stakeholders unified visibility into revenue, profit, customer behavior, and product performance.
- Built KPI-driven reports identifying top-performing products, high-profit categories, and underperforming segments to support inventory and sales decisions.
- Analyzed regional sales and customer purchasing patterns to uncover growth opportunities and improve market-level performance tracking.
- Automated recurring business reporting via interactive, drill-through dashboards, cutting manual analysis effort for repeat reporting cycles.

Certifications

- **Data Analytics Diploma** – GRAS tech (2025–2026): Practical case studies applying SQL and Python to real analytical tasks; data cleaning and transformation using Power Query; interactive dashboards in Excel and Power BI; business reports and presentations for stakeholder decision-making.
- **SQL (Advanced) Certificate**
- **Deloitte Australia – Data Analytics Job Simulation**
- **Tata – GenAI Powered Data Analytics Job Simulation**
- **PNC – Banking at PNC: Building Career Skills Job Simulation**
- **AI Tools Workshop**
- **Diploma in Office Automation and Publishing** (2023–2024): Advanced Excel, Tally Prime, PowerPoint, dashboard creation, spreadsheet handling, reporting accuracy, and professional data presentation techniques.

Education

Bachelor of Commerce (B.Com), General

August 2018 – September 2021

Hemvati Nandan Bahuguna Garhwal University (HNBGU), Srinagar
